

Safe Water Management in Bermuda

Bermuda College is pleased to offer three mini courses on water management in Bermuda. They are designed to take a holistic approach and aim to raise awareness and understanding of the different facets of waste and wastewater management as well as provide basic professional training in water quality control.

Drinking Water Quality Control

TDS HEA6

This course offers a holistic approach to water quality control in Bermuda and is designed to enhance the knowledge of workers and specialists in the field. Additionally, this course aims to raise awareness and understanding of the different facets of water quality control and how they interplay among a broad spectrum of private, government and other sectors.

TOPICS INCLUDE:

- Drinking water analysis and monitoring
- Drinking water treatment processes
- National and international water quality standards
- Best practices in integrated water management
- New trends in water treatment and quality control

Course dates: December 7th • 9 a.m. – 5 p.m. & December 8th • 6 – 9 p.m.

Venue: Bermuda College

Cost: \$395

Best Practices for Residential Water Management in Bermuda

TDS HEA7

This course is designed to equip attendees with basic skills for managing their residential water and wastewater installations based on best practices. Students will learn the basics of drinking water treatment, water conservation and concepts for managing your water and waste water in Bermuda.

Course dates: 30 November • 9 a.m. – 5 p.m.

Venue: Bermuda College

Cost: \$245

Fundamentals of Wastewater Treatment and Management

TDS HEA8

This interactive course is geared at maintenance personnel, facility managers as well as educators, students, and specialists in the field of wastewater treatment and management in Bermuda. Through a blend of interactive lectures and hands-on practical sessions, this course aims to provide attendees with a basic knowledge of the concepts and tools essential for operating wastewater treatment facilities.

Course dates: 14 December • 9 a.m. – 5 p.m.

Venue: Bermuda College

Cost: \$315
